THE FOUR BELIEFS

PATCHEDU.COM

BELIEF IN THE PRODUCT

In order to get others passionate about something, you must be passionate about it. You must have 100% unwavering belief in the patches you sell in order to sell them. People will buy your passion about the patches, before they buy the patches themselves. Your tone matters just as much as your words. Get excited about what you have to offer because no one else on the planet offers them! X39 is unlike anything else and offers some of the most profound and life-changing benefits to anyone with a heartbeat. Take a look at the front of this Manual for all the information on these incredible patches!

BELIEF IN THE COMPANY

Any company you align yourself with has their own set of ethics, philosophies, and standards by which they operate. These standards should closely align with your own. Take some time to listen to the founder, David Schmidt, through the various trainings available online. Read about how LifeWave began on the LifeWave.com website. Read "The Story of X39" by David Schmidt for a great perspective on how the X39 came to be at tinyurl.com/X39-story and then get excited about the massive gift LifeWave has given you not only for your personal health, but financial health too!

BELIEF IN THE INDUSTRY

The network marketing or direct sales industry is an incredibly lucrative industry. As of a 2022 Direct Selling Association release, the direct selling industry generates \$40.5 billion in sales and has over 6.7 million entrepreneurs selling on a part-time or full-time basis. There are many names for the industry such as direct sales, network marketing, social selling, referral marketing, affiliate marketing, and multilevel marketing (MLM), with the latter often coming with preconceived negative notions. Some people think all direct sales companies are pyramid schemes. All forms of pyramid schemes are illegal. Large corporations have more of a pyramid shape than direct sales companies do. One person at the top makes all the money with hundreds of thousands of workers at the bottom making minimum wage. With direct sales, there is no glass ceiling, and instead of the company paying 60% or more on their marketing budget, they give that to the brand partners who are selling their product. Most direct sales companies only pay 40-50% of their profits to their brand partners. LifeWave pays its brand partners in the field a generous 60%. The added bonus of shopping with trusted friends and helping put food on their table is also something to consider, rather than lining the pockets of big industry.

BELIEF IN YOURSELF

Belief in yourself is the most important belief of all four. This is the belief that will allow you to either succeed or fail. Many people were brought up in a world of "I can't" or "I'm afraid." Most of us are full of excuses as to why we are not good enough, but when it comes right down to it, 99% of the time you can succeed if you only get out of your own way. Network marketing is WORK, but it is extremely rewarding when you do it right. If someone were told they had to work 90 hours a week for two years and they were guaranteed a \$400,000 salary, they would most likely go for it. Instead people work a dreary 8am to 6pm job and can barely make ends meet. As of 2024, the average annual salary in the USA is just over \$60,000. What would an extra \$400,000 do for you? Who could you bless? What type of time freedom would you have? What type of choice freedom would you have? To place this in perspective, the average Senior Presidential Director with LifeWave makes just under \$400,000 per year and it takes an average of two years to get to that rank (see the 2023 LifeWave Income Disclosure on page 42). Are you ready to start believing in yourself?

THE LIVE EVENT

PATCHEDU.COM

STEP ONE: INVITES

- Invite four times the amount of people you would like to attend. For 10 people, invite 40.
- Personally invite each person one to two weeks prior to the event as a "save the date".
- Invite people in person or over the phone. It is important to not send a group text or email.
- When someone confirms their attendance, give them the basics such as time and location. Leave out pertinent information. This will give you reasons to connect with them later as reminders.

STEP TWO: CONNECTION POINTS

- One week before the event, contact each person attending and ask if they can help you with the event. Examples: come early to help set up, come early to help welcome guests at the door, bring extra folding chairs, ask them to bring their famous dip, you get the idea. Ask every single attendee to help in some way. Play to their strengths such as, "Lisa, you are so welcoming and loving. Would you be willing to help greet guests at the door for the party?" This ensures everyone will attend as each person is responsible for something specific. It keeps your guests accountable to show up.
- Four days before the event, ask if they have any friends they would like to invite.
- Two days before, share your address. If they know it already, say it is for friends they want to invite.
- One day before, thank them for helping and give any details that pertain to their area of service.
- The day of, let them know your door will be unlocked and to please come in when they arrive (assuming your neighborhood is safe and/or this is even an option in your area.)

STEP THREE: THE PATCH PARTY, EVENT, OR CLASS

There are many ways to approach a patch party, event, or class. Lean into your strengths and do something fun! Have some inexpensive party gifts to give out, such as electrolyte sticks, packs of sea salt, a patch, or even a drawing to win a larger prize depending on the size of your event. Your event, party, or class should be no longer than 90 minutes under normal circumstances.

1. Have a pre-party get together in the kitchen with drinks and light snacks. Don't overdo it with decorations and a lot of food. You want it to be duplicatable in the minds of your guests.
2. Gather everyone into your main room for the info session. This should start around 15 minutes in.
3. Welcome everyone and thank them for coming, then show the 2-minute phototherapy video.
4. Share your testimony in 3-5 minutes. Do not make this any longer. Short and sweet.
5. Share about the X39 patch. The education part should take 15-20 minutes. Hand out a brochure*. Follow one of the presentations on PatchEDU.com. Note: use the X39 presentation first. During the presentation, show the power of the patches by patching a guest.
6. Ask those who have tried X39 to share their testimony. If none, share some you have heard about.
7. Go over the various packages and buy-in options. Remind them of the money-back guarantee.
8. Share the opportunity portion of the presentation. This portion should take 10-15 minutes.
9. Don't forget to laugh and have fun. Talk about any common issues some people may have.
10. ASK FOR THE SALE! "Who is ready to get healthy with X39? Let's enroll you now!" Pass out an enrollment form and a pen to everyone there. Offer an incentive to those who enroll at the event.

STEP FOUR: FOLLOW-UP

Follow-up with everyone who attended. Thank them for coming. Share your excitement with those who enrolled. Give them some onboarding material such as this Patch Manual. Ask more questions to those who did not enroll. Your goal is to help them get healthy!

STEP FIVE: PRACTICE, PRACTICE, PRACTICE!

The more you host parties, events, and classes, the better you will become at presenting, and the easier and more fun they will be for both you and your guests. For any event you host, invite everyone, including those who are already on your team under you. The more the merrier!

X39 PATENT

PATENT NO. US 10,716,953 B1

X39 is "a wearable phototherapy apparatus that produces beneficial effects to a human body such as **activation of stem cells, improvement in strength, improvement in stamina, pain relief** via a non-transdermal container. The non-transdermal apparatus reflects or emits specific wavelengths of light to **elevate levels of the copper peptide GHK-CU in the body.**"

ABSTRACT

(57) Embodiments enables a wearable phototherapy apparatus that produces beneficial effects to a human body such as activation of stem cells, improvement in strength, improvement in stamina, pain relief via a non-transdermal container. May include an optional transdermal container that releases or increases copper peptide GHK-Cu in a subject's body. The non-transdermal apparatus reflects or emits specific wavelengths of light to elevate levels of the copper peptide GHK-Cu in the body. The non-transdermal apparatus includes one or more materials that prevent the Left-Handed molecule from direct contact with the body while the enclosure is coupled to the body and prevents the Left-Handed molecules from entering the body.
