## You shine in your mind and body

X49's patented technology puts you back on the path to optimum physical and mental potential. X49 works in synergy with X39.

### How to use

- Apply to clean dry skin in the morning.
- Wear patch for 12 hours before removing and discarding.
- Stay well hydrate.

Juliana Coles  
(505) 690-1262

### How it works

The non-transdermal patch contains a mesh lattice made of organic materials that reflect your body heat in the form of a precisely modulated low level infrared light.

Various wavelengths of light are reflected back into the body which signal the body to activate a specific peptide occurring naturally in the body. This enables the body to revert to a more youthful state through cellular regeneration, energy flow and other restorative changes.
